

## EXPERIENCE UNLIMITED FREEDOM

With the SOL Nova Unlimited, we have extended the incomparable features of the SOL Nova by adding the Responsive Mode and provided it with a user-friendly, rechargeable battery. For the first time, we integrated the functions of a complete power unit into a tattoo machine, which is operated by a single button.

The frequency is adjusted quickly and intuitively by holding this button while tilting the machine. This unprecedented, revolutionary operating concept can be experienced continuously, as the machine runs longer than the supplied spare battery needs to be charged. Tattooing has never been easier, more intuitive or more free - an unlimited experience!

## KEYFACTS

- Maximum freedom of movement through cordless operation
- Intuitive working via revolutionary 1-button operation and motion control
